

PRAIRIE HOMES

Quality Custom Homes

BUILDING WITH INTEGRITY

For more than 18 years, family-owned Prairie Homes has been proudly creating custom homes for our neighbors in the Kansas City area. Your community is our community, and that's why we pride ourselves on

working with you to create your unique home—one that you'll be proud to call your own. Selecting a builder for your dream home is one of the most important decisions you'll ever make, so why not choose a team that will absolutely stand by their work, and has your best interests at heart?

HIGH STANDARDS

Walking through a Prairie Home, you'll immediately appreciate the attention to detail. Trademarks of Prairie Homes include extra-high ceilings, open floor plans, extensive wood moldings and trim, and tile details. When you

Trademarks

purchase a Prairie Home, you are also purchasing dependable brand-name products such as energy-efficient windows, reliable appliances and faucets, and quality heating and air conditioning systems. All these features are standard with Prairie Homes.

SOLID CONSTRUCTION

The Prairie Homes construction team is part of our family, and they consistently go above and beyond to deliver outstanding quality. Our floors never squeak because they're carefully anchored. The sides of our homes

are first completely covered in a weather-resistant house wrap and then finished with high-quality siding, stone, or stucco. Finally, every roof is covered with quality, long lasting shingles, providing you with all-season protection.

YOUR HOME, YOUR WAY

Your home should suit you perfectly. So should the process of building it. Whether you're looking for a ready-made floor plan or a custom design from the ground up, a single-family home in one of Kansas City's best

communities or an amenity-rich villa, we'll work with you to make your dream a reality in the way that works best for you. Bring your own plans, choose one of ours, or work with our architects or your own. The result will be a home that's uniquely yours.

LASTING INTEGRITY

With Prairie Homes, you'll have a builder who is hands-on, flexible, and easy to work with. Our goal is to create a home that leaves a lasting impression for generations to come. We have a personal investment in every home we

build, which ensures that your home gets finished to our high standards. If you appreciate quality craftsmanship and quality materials, then you owe it to yourself to look at Prairie Homes.
